Flourishing business the right way,
the eco-friendly way!

ABOUT US

SELLSAGE is a certified minority enterprise for eco-friendly products. We are driven with the passion of creating awareness of eco-friendly goods and making them accessible to the larger part of the world. With sustainability as our prime focus, all of our products have been mindfully selected with the goal of leaving the smallest carbon footprint for our planet. SellSage is actively making efforts at both the business and consumer levels to transform the world towards sustainable living.

We believe...

Earth matters most
We keep sustainability as our prime focus during product development and sourcing

Awareness is key
We want to create awareness about how our choices impact the environment

Ethics first
We are driven by the moral code of serving our customers while safeguarding nature

We exist because of you
Sustainable choices made by our customers motivates us to deliver

can hold hot/cold food while maintaining shape

CANE-BASED PRODUCTS

biodegrade in 4-6 months

non-compostable unless burnt

made from bamboo trees which are cut for the purpose

lose shape on contact with hot liquids

OUR IMPACT

From picking up the naturally fallen leaves of the areca palm trees to shipping our elegant tableware, we make a sincere effort to be conscious of our actions at each and every step.

It is absolutely crucial for us to have a perfect alignment of values and beliefs with our partnering manufacturers (in Southeast Asia). They ensure regulated working hours, fair pay and safe working conditions for the local workers. We believe we can make a difference through this collaborative effort and empower a sustainable eco-system for all: the local workers, our consumers and above all... Our mother earth.
